Chem.-Biol. Interactions, 62 (1987) 303—304
Elsevier Scientific Publishers Ireland Ltd.

CHEMICO-BIOLOGICAL INTERACTIONS

CONTENTS

VOLUME 62 (1987)

Editorial 1
The role of glutathione and glutathione *S*-transferases in fatty acid ozonide detoxification
by I.M.C.M. Rietjens, H.H. Lemmink, G.M. Alink and P.J. van Bladeren (Wageningen, The Netherlands) 3
Species and tissue distribution of the 4S carcinogen binding protein and its possible role in cytochrome *P*-450 induction
by T.H. Zytkovicz (Boston, MA) 15
N,N-Diethylaminoalkoxy-4,7-phenanthrolines and 1,8-diazaflourene derivatives, a novel class of potential interferon inducers and antiviral agents: interactions with nucleic acids in vitro and cellular activities
by M. Fikus, T. Gołas, A.D. Inglot, B. Szulc and Z. Szułc (Warsaw, Poland) 25
Electron donor properties of the antitumour drug amsacrine as studied by fluorescence quenching of DNA-bound ethidium
by L.M. Davis, J.D. Harvey and B.C. Baguley (Aukland, New Zealand) 45
In vitro effects of *trans*-4-hydroxy-2-alkenals on mouse liver cytochrome *P*-450
by M.W. Lame' and H.J. Segall (Davis, CA) 59
Effect of phenobarbital and 3-methylcholanthrene on aldehyde dehydrogenase activity in cultures of $HepG_2$ cells and normal human hepatocytes
by M. Marselos, S.C. Strom and G. Michalopoulos (Durham, NC) 75
Hydroxyl radical production in the presence of fibres by Fenton-type reaction
by M. Gulumian and J.A. van Wyk, (Johannesburg, Republic of South Africa) 89

Rapid Communication
The passage of G_2 hepatocytes into mitosis during fasting
by R. Daoust (Montréal, Canada) 99

Role of 1-methyl-4-phenylpyridinium ion formation and accumulation in 1-methyl-4-phenyl-1,2,3,6-tetrahydropyridine toxicity to isolated hepatocytes
by D. Di Monte, G. Ekström, T. Shinka, M.T. Smith, A.J. Trevor and N. Castagnoli, Jr. (Berkeley and San Francisco, CA) 105
Assessment of DNA binding of platinum-radiosensitizer complexes by inhibition of restriction enzymes
by K.A. Skov, H. Adomat, D.C. Konway and N.P. Farrell (Vancouver, Canada and Burlington, VA) 117
Oxidation of glutathione and reduced pyridine nucleotides by the myotoxic and mutagenic aromatic amine, 1,2,4-triaminobenzene
by R. Munday (Hamilton, New Zealand) 131
Reaction of *trans*-4-*N*-acetylaminostilbene with guanosine, deoxyguanosine, RNA and DNA in vitro: predominant product is a cyclic N^2, *N*3-guanine adduct
by R. Franz and H.-G. Neumann (Würzburg, F.R.G.) 143
The renal toxicity of (*R*)-3-chlorolactate in the rat
by K.E. Porter and A.R. Jones (Sydney, Australia) 157

Inhibition by celiptium of the fetal thymidine kinase synthesis induced by estrogens in the rat uterus
by L. El Hiyani, S. Samperez and P. Jouan (Rennes, France) 167
Uncoupling effect of fungal hydroxyanthraquinones on mitochondrial oxidative phosphorylation
by V. Betina and S. Kužela (Bratislava, Czechoslovakia) 179
Changes in hepatic dolichol and dolichyl monophosphate caused by treatment of rats with inducers of the endoplasmic reticulum and peroxisomes and during ontogeny
by C. Edlund, J. Ericsson and G. Dallner (Stockholm, Sweden) 191
Hexose monophosphate shunt and cholesterogenesis in lead-induced kidney hyperplasia
by G.M. Ledda-Columbano, A. Columbano, S. Dessi, P. Coni, C. Chiodino, G. Faa and P. Pani (Cagliari, Italy) 209
Aliphatic aldehydes inhibit the proliferative response of human peripheral blood lymphocytes to phytohemagglutinin and alloantigens
by L. Tessitore, L. Matera, G. Bonelli, F.M. Baccino and M.U. Diazani (Turin, Italy) 217
Rate constants for one-electron oxidation by the CF_3O_2, CCl_3O_2 and $CBr_3O_2^{\bullet}$ radicals in aqueous solutions
by R.E. Huie, D. Brault and P. Neta (Gaithersburg, MD and Paris, France) 227
Interactions of the antitumor drug, etoposide, with reduced thiols in vitro and in vivo
by A.G. Katki, B. Kalyanaraman and B.K. Sinha (Bethesda, MD and Milwaukee, WI) 237
Hepatic levels of cytosolic, microsomal and 'mitochondrial' epoxide hydrolases and other drug-metabolizing enzymes after treatment of mice with various xenobiotics and endogenous compounds
by J. Meijer and J.W. DePierre (Stockholm, Sweden) 249
Quantitative structure-activity relationships in a series of alcohols exhibiting inhibition of cytochrome *P*-450-mediated aniline hydroxylation
by D.F.V. Lewis (Guildford, U.K.) 271
A circular dichroism study of the binding of CC-1065 to B and Z form poly(dl-5BrdC)-poly(dl-5BrdC)
by W.C. Kreuger and M.D. Prairie (Kalamazoo, MI) 281
Subject Index Volume 62 (1987) 297
